ANNUAL OPERATING BUDGET IMPACT (\$000)

DESCRIPTION

This pedestrian access improvement program provides sidewalks and bus pads on County-owned roads and some State-maintained roadways under the Maryland State Highway retrofit sidewalk program. Some funds from this project will go to support the Renew Montgomery program. The Department of Public Works and Transportation maintains an official list of all outstanding sidewalk requests. Future projects are evaluated and selected from this list, which is continually updated with new requests. In addition, projects identified by the Citizens' Advisory Boards are placed on the list. One aspect of this project will focus on improving pedestrian walkability by creating a safer walking environment, utilizing selected engineering technologies, and ensuring ADA compliance.

JUSTIFICATION

In addition to connecting existing sidewalks, these projects increase pedestrian safety and facilitate walking to: Metrorail stations; bus stops; shopping and medical centers; employment, recreational, and school sites. The average rate of requests for sidewalks has been between 80-100 per year over the last two years. A backlog of over 150 requests remains.

Plans and Studies

A pedestrian impact analysis has been completed for this project.

Cost Change

Increase due to the addition of FY11 and FY12 to this ongoing project.

STATUS

Ongoing.

OTHER

Projects implemented under this project originate from private citizens, citizen associations, and public agencies. In FY04 and FY05, 8 and 10 miles of sidewalks were built respectively. Projects are evaluated and scheduled using sidewalk prioritization procedures.

FISCAL NOTE

*Expenditures will continue indefinitely.
